Canola

LIBERTY LINK

DKLL 82 SC

- High yielding DEKALB hybrid with straight cut genetics and the LibertyLink® trait
- Early maturity with competitive yields in 2021 trials
- Improved pod integrity with Blackleg-R rating
- Available with Buteo seed treatment for enhanced flea beetle protection

LIBERTY LINK

CS4000 LL

NEW!

- New LibertyLink® mid-season hybrid offering outstanding yield potential
- Enhanced disease package with Clubroot and Blackleg resistance
- Very good lodging resistance with excellent straight cut performance

LIBERTY LINK

DKLL 83 SC

NEW!

- Dekalb's new early maturing LibertyLink® hybrid with high yield potential
- Straight cut plus genetics designed for improved pod integrity and enhanced shatter protection
- Great standability with a short to medium plant height
- 104% yield compared to DKLL 82 SC

Clearfield
Production System for Canola

CS2700 CL

NEW!

- New Clearfield® hybrid offering increased yield over CS2500 and exclusive contract premiums
- Clubroot resistance and multigenic blackleg resistance
- Very good lodging resistance developed for efficient swathing and excellent harvestability
- Top yield performer against checks

Corn

VTDoublePRO
RIB COMPLETE

DKC24-06RIB

- 74 day RM
- Impressed growers with improved dry-down and yield potential, and excellent bushel weight in 2021
- Exciting new 74 day variety for the Dekalb lineup
- Performed well at all Dekalb trial locations with competitive yields

VTDoublePRO
RIB COMPLETE

DKC31-85RIB

- 81 day RM
- Strong emergence with good root and stalk strength
- Very good dry-down, harvest appearance, and drought tolerance with a silage option
- Introduced in 2020, impressing growers with proven yield on farm and in trials

VTDoublePRO
RIB COMPLETE

DKC33-37RIB

- 83 day RM
- Excellent drought tolerance
- Top yield performer in 2021 trials with fast dry-down and improved root and stalk strength
- Earlier maturing 35-88 replacement

VTDoublePRO
RIB COMPLETE

255

- 83 day RM
- Vigorous spring emergence that responds well to intensive management
- Medium-short sized hybrid with enhanced yield and dry-down, top yielding variety in 2021 trials
- Very good Goss's wilt and disease tolerant ratings
